Pform

self adhesive vinyls + laminates

PRODUCT DATA SHEET

Max

Applications

Description

Pform Max is a versatile perforated window film designed for medium-term campaigns and window graphics for up to 3 years. This polymeric film delivers excellent print performance while maintaining clear visibility from the inside looking out, making it ideal for retail storefronts, branded glazing and commercial signage. Available in 20%, 40% and 50% perforation patterns.

Features & Benefits

- 3-year polymeric film — durable performance for medium-term window graphics.
- 180-micron construction — makes installation and removal easier.
- Good dimensional stability — helps minimise shrinkage and maintain a professional finish over time.
- Excellent print quality — delivers vibrant graphics for retail and commercial branding.
- Available in 20%, 40% and 50% openness — choose the balance of graphic coverage and outward visibility.
- UV, solvent and latex compatible — suitable for printing across all three technologies.

Durability

3 years in Southern Australia. Clean removal within 12 months
