

magnetic Wall™

Magnetic Repositionable Print Media

Photographic Quality on UV, Solvent & Latex

magBlackboard

magWhiteboard

magnetic Wall™

How it works...

PRINT MAGMEDIA

Print MagMedia on UV, Solvent or Latex for a photographic quality result. The reverse black side has a ferrous (metal) coating which attracts to a magnet (MagBase)

INSTALL MAGBASE

Install MagBase self adhesive magnet on intended surface. Peel liner and simply stick. This is a "one time" installation. For best results use a professional installer

INSTALL MAGMEDIA

Retailers can easily install MagMedia onto Magbase. No adhesive, no fuss! Perfect for constantly changing signs. Up to 4 layers (on top of each other) allows for super innovative POS

What you get...

visionary digital™

Innovative media for wide format digital printing
