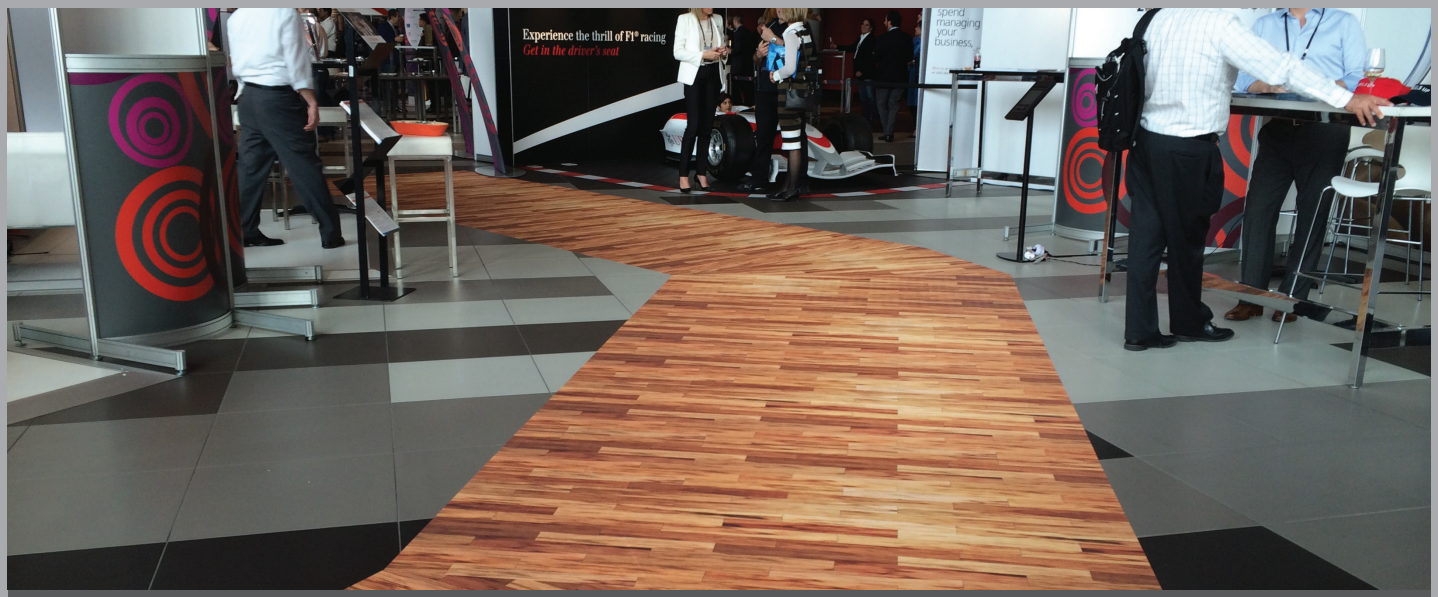
V-Tex

PRODUCT DATA SHEET

V-Tex



Applications

Floor Graphics | Retail | Wall Graphics

Description

V-Tex is a cost-effective woven textile floor media designed for vibrant indoor floor graphics on hard surfaces. Featuring a built-in R11 slip-certified surface, it eliminates the need for overlamination while delivering safe, professional floor graphics with fast production and installation. The woven textile construction provides excellent handling and dimensional stability, making V-Tex ideal for retail promotions, exhibitions and short to medium-term indoor campaigns.

Features & Benefits

- Direct print, no overlaminate required
- R11 non-slip certification
- 310 micron thickness hides floor and wall imperfections
- High tensile & tear strength
- Printable on UV, Latex & Solvent

Applications

- Short term floor graphic for indoors & outdoors
- Retail & promotional environments
- Suitable for some indoor wall graphics (select surfaces)

Test First

Every surface is different so we strongly recommend to test first on the intended surface prior to a full deployment
