CONTINENTAL GRAFIX

PRODUCT DATA SHEET

Innova

Applications

Description

Swiss-engineered by Continental Grafix, Innova is a high-performance perforated window film for medium-term (3 year) window graphics. A brighter white point delivers exceptional colour vibrancy while maintaining clear visibility from the inside looking out. Available in 20%, 30%, 40% and 50% perforation patterns, Innova exceeds the highest standards for flammability and smoke spread.

Features & Benefits

- Up to 3-year durability – ideal for longer-term window graphics, advertising and branding.
- Excellent white point – produces vibrant colours and high-impact printed graphics.
- Available in 20%, 30%, 40% and 50% perforation patterns – balances graphic impact, outward visibility and natural light to suit the application.
- Our best-selling perforated window film – proven performance with 12 years in the Australian market.
- Available in 1372 mm and 1524 mm widths – accommodates a wide range of window sizes.
- Printable with UV, solvent and latex technologies – compatible with the major wide-format printing platforms.
