Pform

self adhesive vinyls + laminates

PRODUCT DATA SHEET

Max Clear20

Applications

Retail

Building Facades

Description

Pform Max Clear20 is a clear perforated window film designed for internal mount, allowing graphics to be installed safely from inside the glass. Mounted behind the glazing, it protects graphics from weather and vandalism while maintaining clear visibility from the inside looking out. Compatible with latex and solvent printing, it is ideal for upper-level glazing. Available in a 20% perforation pattern.

Features & Benefits

- Internal mount — Graphics face outside.
- Glass protection — Shields film from external vandalism.
- Access savings — Avoid external lifts where internally accessible.
- Less traffic management — Avoid external installation closures.
- High-rise savings — Lower installation and replacement costs.
- Weather protection — Sheltered behind glass.
- 20% open / 80% printable — Bold graphics, outward views.
- Solar shading — Reduces glare; may reduce heat gain.*
- One-way vision — Advertise outside, see out from inside.**
- Easy changeovers — Replace and remove indoors.

*Heat performance varies; 80% coverage ≠ 80% heat reduction.
**Requires brighter lighting outside than inside.

Technical Information
